a) What is the URL of the site?

The website I visited is <https://www.canva.com>.

b) What is the purpose of the site?

The purpose of Canva is to help people create graphic designs easily. The website allows users to design posters, presentations, social media posts, invitations, and many other visual materials. It provides templates, images, fonts, and design tools that make creating graphics simple even for beginners.

c) Who is the intended audience?

The intended audience includes students, teachers, businesses, marketers, and anyone who wants to create visual content. It is especially useful for people who do not have professional design skills but still want to make attractive designs.

d) Do you think that the site reaches its intended audience? Why or why not?

Yes, I think the site reaches its intended audience. Canva is very popular around the world and is used by millions of people. The platform is easy to use, which makes it suitable for beginners as well as professionals.

e) Is the site useful to you? Why or why not?

Yes, the site is useful to me because it helps create presentations, posters, and other projects quickly. It saves time and allows users to make professional-looking designs without complicated software.

f) Does this site appeal to you? Why or why not?

Yes, the site appeals to me because it has a clean and colorful design. It uses many images,

templates, and icons that make the site visually attractive. The organization is clear, and it is easy to navigate and find the tools you need.

g) Would you encourage others to visit this site? Why or why not?

Yes, I would encourage others to visit this site because it is very helpful for creating different types of designs. It is simple to use and offers many creative possibilities.

h) How could this site be improved?

The site could be improved by offering more free templates and design elements. Some features require a paid subscription, so adding more free options would make the site even more useful.
